From Director's Desk

Today education is no more defined by boundaries. Knowledge today is shared globally irrespective of time, distance, geography or language through a technology platform. The domestic and international environment is undergoing a revolutionary change due to which there is a need to lay down a hard sustainable and patriotic foundation at the school so that our children can prove themselves to be the best citizens of the world.

I believe that academic strength is a power for the children to meet the challenges of a competitive world. They need great communication and thinking skills, strong character, and an attitude to be pipelong learners and contribute in a positive way to the society at large.

Explore, Examine, Hypothesize and draw in fragments leading to create scientific temperament amongst them. Our curriculum focus on 'Healthy Life', 'Expressive Life', 'Communicative Life', 'Challenging Life' and 'Inquisitive life' to develop the social intellectual and emotional quotient of a child.

Director

From Principal's Desk

“It's not about how good your child is, It's about how is your child good.”I have great pleasure in welcoming you in U S Taurian World School. At our preschool, our intention is to act as enablers for the tiny toddlers to paint their white canvases with the colours of life in a playful and joyful fashion.

The teachers here being well qualified, experienced, with human approach nurture the tiny tots with good moral values along with the development of various learning skills. The multimedia classrooms and the innovative child centered activity based teaching methods make learning a pleasant experience for the little ones.

Dabbing with colors, nature walks, investigating activities- fine and gross motor development, creative and aesthetic expression!

The break time facility provided to the students promotes good eating habits, table etiquettes and develop social behavior.

All the important national and social festivals are celebrated at U S Taurian World School with great pomp and show to inculcate moral, cultural and traditional values in the children from the very tender age. School Readiness Programmes are designed in such a way that it prepares children to make a smooth transition from play school to formal school.

Education and development are important, but we know that nothing matters more than the safety, security and health of the child.

I on my part assure that memories of time spent at U S Taurian World School would be cherished by young ones throughout their life.

INTRODUCTION

Welcome to **U S Taurian World School** is a new age learning place, where the children are getting quality education with moral and cultural values for all round development, to face the challenges of ever changing world. In this area the school have come a long way and enjoys a reputation for excellence in academic, sports and cultural activities. In one school, there is a place for everyone. We have teacher who are qualified and experienced to bring out the best in every student. We have a regular meeting on every saturday with teachers to discuss a common syllabus, method of teaching and assessment for development of student and excellence performance of student. We create a stimulating and engaging atmosphere which enchances the child's talent and potential. Backed by a curriculum including the best of the eastern and western system of education. Our aim is to add an extra brilliance to every fact of child's personality which will help him/her to stand emphasis "Experiential Learning" school provide opportunities to student to question.

"Teach yourselves, teach everyone his real nature, call upon the sleeping soul and see how it awakes. Power will come, glory will come, goodness will come, purity will come, and everything that is excellent will come when this sleeping soul is noused to self-conscious activity."

- Swami Vivekanand
